## Prestige Medical announces extra benefits for dentists with the C3 Advance autoclave

With the C3 Advance autoclave already established as a high quality, reliable product, Prestige Medical has now announced an improved range of benefits for dentists.

C3 Advance is now supplied as a complete package – with 6 trays, a choice of data logger or printer, and a full two year parts and labour warranty for real peace of mind – all included in the price.

Commercial Director, David Robinson, commented “Dentists need to know that they are making a good investment when it comes to choosing an autoclave. With one of the highest tray capacities available on

the market, we now provide a complete set of 6 trays with every unit. A method of recording data is essential for compliance, therefore offer a choice of methods part of the new package. Reliability is essential and the performance of the C3 Advance is such that we are confident to provide each unit with a full two year warranty which includes an annual service, all parts and labour and any call outs.”

“Service is carried out by our own team of Prestige Medical engineers and, of course, all our equipment comes complete with installation, commissioning and user training completely free of charge as standard.”
